Packing	700 ml / 770 g PE Cartridge 2 L / 2,2 kg PE Jerrycan
Product Code	32001601 (12x700 ml Parcel) 32001573 (3x2 L Parcel)

FIX MATIC

DISHWASHER DETERGENT

It emulsifies all kinds of oil residues by penetrating to the dirty surfaces very well. It prevents re-sticking of the dispersed dirt onto the surface. It eliminates harmful effects caused by water hardness and does not cause to calcification. It does not harm to the luster of washed material. It is dosed with Nilco dosage pumps.

pH (% 1)	12-13
Dossage	1,5-4,5 ml / 1 L Water
Packing	20 L / 23,4 kg PE Jerrycan
Product Code	32001430 (20 L PE Jerrycan)

FIX MATIC SW

DISHWASHER DETERGENT EFFECTIVE AT SOFT WATER

It emulsifies all kinds of oil residues by penetrating to the dirty surfaces very well. It prevents re-sticking of the dispersed dirt onto the surface. It does not harm to the luster of washed material. It is dosed with Nilco dosage pumps.

pH (% 1)	11-13
Dossage	2-5 ml / 1 L Water
Packing	20 L / 23,4 kg PE Jerrycan
Product Code	32001512 (20 L PE Jerrycan)

KITCHEN HYGIENE PRODUCTS

FIX MATIC LC

CHLORINE DISHWASHER DETERGENT

A specially formulated liquid dishwasher detergent that gives superior results in removing all kinds of dirt and stains in medium hard water conditions. It is suitable to use with Rinse N. It is dosed with Nilco dosage pumps.

pH (% 1)	12-13
Dosage	1,5-4 ml / 1 L Water
Packing	20 L/25,6 kg PE Jerrycan
Product Code	32001510 (20 L PE Jerrycan)

FIX FORZA

PROTEIN AND STARCH REMOVER FOR DISHWASHER

Nilco Fix Forza a high-performance powerful alkali auxiliary washing agent. It cleans heavy starch and protein effectively. It is used with dishwasher detergent.

pH (% 1)	12,5-13,5
Dosage	1,5-4 ml / 1 L Water
Packing	20 L/28,6 kg PE Jerrycan
Product Code	32001561 (20 L PE Jerrycan)

RINSE

DISHWASHER RINSING PRODUCT

It contains oil and dirt remover active substances, organic solvents in its formulation. It prevents remaining of the detergent residues on the washed materials, ensures that they are stainless, dry, and shiny.

pH (% 1)	2,5-3,5
Dosage	0,2-1,2 ml / 1 L Water
Packing	20 L/20,8 kg PE Jerrycan
Product Code	32002118 (20 L PE Jerrycan)

RINSE SW

DISHWASHER RINSING PRODUCT EFFECTIVE IN SOFT WATER

It contains oil and dirt remover active substances, organic solvents in its formulation. It prevents remaining of the detergent residues on the washed materials, ensures that they are stainless, dry, and shiny.

pH	2,5-3,5
Dosage	2-5 ml / 10 L Water
Packing	20 L = 20,4 kg PE Jerrycan
Product Code	32002119 (20 L PE Jerrycan)

RINSE N

RINSE PRODUCT FOR CHLORIC DISHWASHER DETERGENT

It ensures that the plates and glasses washed in the dishwashers come out dry and shiny without leaving any stains. It gives excellent results in all kinds of conditions. It is suitable to use with Fixmatic LC.

pH	6-7
Dosage	0,2-1,5 ml / 1 L Water
Packing	20 L/20,2 kg PE Jerrycan
Product Code	32001514 (20 L PE Jerrycan)

PREDEEP

LIQUID STAIN REMOVER PRESOAK PRODUCT

It perfectly cleans the persistent stains like tea, coffee, juice on the heavily stained and dirty dishes and starch residues. It ensures hygiene thanks to chlorine that it contains. It can be used safely on the porcelain, ceramic and stainless-steel kitchen equipment safely.

pH (% 1)	11-13
Dosage	2-5 ml / 1 L Water
Packing	5 L/5,5 kg PE Jerrycan
Product Code	32001742 (4x5 L Parcel)

KITCHEN HYGIENE PRODUCTS

METALLIC CLEANER

METAL STAIN CLEANER

It perfectly cleans the stains and traces on the plated caused by metal knives and stains on the porcelain cups caused by metal spoons. Metal scratches on the porcelain are easily and completely removed with immersion method.

pH (% 1)	1,5-2,5
Dossage	Material to be cleaned is immersed directly into the product.
Packing	5 L/5,2 kg PE Jerrycan
Product Code	32000088 (4x5 L Parcel)

GRILL

BURNED OIL, BARBECUE AND OVEN CLEANER

It cleans the burned oil on kitchen equipment like furnace, oven and barbecue. It is a suitable cleaner for deep fryers and extractor hoods. It is an alkali product. It breaks and disperses the oil. It easily decomposes in the nature.

Packing	5 L/5,2 kg PE Jerrycan
Product Code	32001565 (4x5 L Parcel)

DESOXY NORINSE 635

PAA-BASED RINSELESS FRUIT-VEGETALE HYGIENE PRODUCT

It is a Per Acetic Acid-based disinfection product. It is used in vegetable and fruit disinfection. It does not leave scent and residue and is rinsed with fresh water. It is effective at low temperatures. It is very effective against gram-negative and gram-positive bacteria as well as moulds and yeasts and other fungus types. It can be used on stainless steel surfaces in usage concentration, should be used on other metals in controlled manner.

pH	1-2
Dossage	50-80 mg/L
Packing	20 L/22 kg PE Jerrycan
Product Code	32000187 (20 L PE Jerrycan)

KITCHEN HYGIENE PRODUCTS

FOAMIX 202

ALKALI FOAM CLEANER

It is a heavy oil and dirt remover product used in open area cleaning in food premises. It can be used in the cleaning of food production areas and all kinds of surfaces contacting with food where there are persistent protein and oil-based dirt. Thanks to the dense foam that it creates on the surfaces, the cleaning effect is increased by prolonging the contact time of the product with the dirt.

All surface-active substances in its composition biologically decompose in the nature. It should not be used on aluminium, copper, brass and similar sensitive metals. Prolonged contact with metal surfaces including stainless steel should be avoided.

pH	12-13
Dosage	% 2-5 diluting
Packing	20 L/22,4 kg PE Jerrycan 1000 L/1120 kg PE Barrel
Product Code	32001858 (20 L PE Jerrycan) 32001859 (1000 L PE Barrel)

FOAMIX ACID 301

FOAM ACIDIC CLEANERS

It is used in the acidic cleaning of open areas, machine and equipment in the food industry. It is effective in cleaning lime and mineral deposits on surfaces. It is foamy and suitable for use with all kinds of foam application system. Surface active substances in its content increase the cleaning effect, also thanks to its acidic range, it ensures hygienic environment. It should not be used on aluminium, copper, brass and similar sensitive metals. It is suitable for stainless steel surfaces in its use concentration.

pH	1-2
Dosage	%1-10 concentration
Packing	20 L/23,4 kg PE Jerrycan
Product Code	32000165 (20 L PE Jerrycan)

FOAMIX CHLOR 200

FOAM ALKALI CHLORINE SANITATION PRODUCT

A heavy oil and dirt remover product used in open area cleaning in food premises. It can be used in cleaning of food production areas, all kinds of surface where there are persistent protein and oil-based dirt that the food contacts. While cleaning, it also disinfection with active chlorine effect. Thanks to the dense foam that it creates, cleaning effect is increased by prolonging the contact time of the product with the dirt. The active substances in its content can biologically decompose in the nature.

pH	12-13
Dosage	It is applied by diluting 1-5% according to the degree of contamination of the surface
Packing	20 L/22,8 kg PE Jerrycan 1000 L/1140 kg PE Barrel
Product Code	32001812 (20 L PE Jerrycan) 32001813 (1000 L PE Barrel)

FOAMIX HEAVY 206

BURNED, STICKED DIRT CLEANER

A heavy oil and dirt remover product used in open area cleaning in food premises. It can be used in cleaning of food production areas, all kinds of surface where there are persistent protein and oil-based dirt that the food contacts. PERSONAL CARE HYGIENE PRODUCTS

One of the most important sources of microorganism contamination in enterprises is the working staff. Therefore, personnel hygiene is one of the issues that everyone should pay attention primarily due to health, economic and legal obligations.

PERSONAL HYGIENE IS THE MOST IMPORTANT AND CRITICAL ISSUE OF BUSINESSES.

The contamination can be seen especially through employees in the food industry or due to their non-compliance with cleaning and hygiene rules. Therefore, the importance given to personnel hygiene by food production facilities is very high. Compliance of staffs with personal hygiene rules, using work clothes and protective clothing in place and on time, ensuring the cleaning and disinfection of the working environment are important issues. production can be carried out smoothly, reliably and healthily by ensuring personnel hygiene and reducing contamination to the foods.

PERSONAL CARE HYGIENE PRODUCTS

HANDY

LIQUID HAND WASH PRODUCT

A pearlescent and very foamy hand cleaning liquid. It is formulated according to skin pH, keeps the skin soft and leaves pleasant scent at hands.

pH	5,5-6,5
Dosage	Product is used directly.
Packing	5 L/5,15 kg PE Jerrycan 20 L/20,60 kg PE Jerrycan
Product Code	32001883 (4x5 L Parcel) 32001882 (20 L PE Jerrycan)

GALA

CREAMY LIQUID HAND WASH PRODUCT

It leaves a soft effect on the skin with its creamy structure. It prevents dryness and skin irritation. It has effective perfume.

pH	5,5-6,5
Dosage	Product is used directly.
Packing	280 ml/292 g Cartridge 700 ml/730 gr Cartridge 5 L/5,22 kg PE Jerrycan 20 L/20,9 kg PE Jerrycan
Product Code	32002100 (15x 350 ml Parcel) 32001604 (12x700 ml Parcel)

HANDY WHITE

LIQUID HAND WASH PRODUCT

It ensures hand cleaning of customers and employees of factory, restaurant and hotel. It purifies your hands with the surface-active substance in its formula. It is high performance, aromatic, pearlescent hand wash substance.

pH	5,5-6,5

GENERAL AREA HYGIENE PRODUCTS

Nilco ensures that general cleaning costs are kept under control and high performance is maintained with eco-friendly products and dosage systems. Thanks to well-planned building maintenance practices, you increase your productivity with dust-free, clean smelling areas.

SPECIAL HYGIENE IN GENERAL AREAS

Nilco ensures effective and fast solutions in living spaces like hotels, hospitals, schools, offices and shopping malls with professional general area cleaning, hygiene products and dosage equipment in its portfolio. Nilco develops its products with expert R&D staff and produces as user and eco-friendly with high technology.

The importance of cleanliness and hygiene in living spaces like hotel rooms, bathrooms, toilets, offices, shopping malls is due to these areas are open to the use of many people and the time allotted for cleaning is short. Since the intensive use of these areas makes the cleaning difficult as well as carries the risk of communication of disease, the cleaning and hygiene in public areas is more special than in our home.

With our solutions for cleaning of the floors, surfaces and all kinds of narrow or wide spaces, we help you to maintain sustainable cleanliness in every detail of your facility; we provide your enterprise serves to its guests under perfect cleaning conditions by providing products, systems and equipment for your needs in all commercial, industrial and institutional areas.

A perfect working environment is provided by training the cleaning staff about the products and systems with applied and theoretical trainings. With the support given by after-sales visits, as Nilco, our goal is to ensure sustainable customer satisfaction.

We invite you to experience Nilco general area hygiene products that ensure healthy and clean environments.

GENERAL AREA HYGIENE PRODUCTS

TEXTILE HYGIENE PRODUCTS

The importance of textile hygiene in terms of human health cannot be discussed. Laundry is one of the most tangible indicators that reflect the hygiene standards of enterprises. Nilco develops textile hygiene product with expert R&D staffs and produces as user and eco-friendly with high technology. With textile hygiene portfolio, Nilco offers effective products and systems suitable for the washing conditions and dirt type of all businesses in the sector.

UPGRADE YOUR TEXTILE HYGIENE STANDARD WITH NILCO.

Nilco ensures that the laundry process is kept under control and that the high performance is continuous with innovative, advanced liquid detergent and automatic dosage systems.

Furthermore, direct contact of staffs with detergent is prevented and washing costs are minimized with error-free dosing.

A perfect working environment is provided by training the cleaning staff about the products and systems with applied and theoretical trainings. With the support given by after-sales visits, as Nilco, our goal is to ensure sustainable customer satisfaction.

We also invite you to experience excellent textile hygiene with Nilco products...

MAIN WASHING DETERGENTS

ULTRA MATIC

POWDER DETERGENT WITH TAED VE WHITENER EFFECTIVE IN MODERATE AND HARD WATER

It contains non-ionic active substances, foam regulators, corrosion inhibitor, complexing agents, optical whiteners, substances preventing dirt from come back up to the surface, oxygen-based whiteners, enzymes and perfume in its formula. Thanks to its formula with TAED, it ensures effective cleaning even if in lowest temperatures. With the help of active substances and whiteners, it ensures excellent cleaning against oil, protein and starch-based intensive dirt. It is suitable to use in all kinds of water conditions. It does not harden or wear the laundry. Its active substances in its composition can biologically decompose in the nature.

pH (%)	10-11
Dossage	7-15 g / 1 kg dry laundry (For 0-20 dH water hardness)
Packing	20 kg PE Bag
Product Code	32000513 (20 kg PE Bag)

SUPER MATIC

POWDER DETERGENT WITH TAED AND WHITENER

With the help of active substances and whiteners, it ensures excellent cleaning against oil, protein and starch-based intensive dirt. Thanks to its formula with TAED, it ensures effective cleaning even if in lowest temperatures and ensures energy saving. It does not harden or wear the laundry.

pH (%)	10-11
Dossage	10-25 g / 1 kg dry laundry (0-20 dH water hardness)
Packing	20 kg PE Bag
Product Code	32000053 (20 kg PE Bag)

LIQUID SYSTEM DOSAGE UNITS

NILCO SOLUTIONS FOR A MORE EFFICIENT TEXTILE WASHING

Efficient operation of private or commercial laundry plants depends on correct equipment, product and dosage equipment.

Thanks to remote access, while Nilco ensures data management, provides reliable service in many liquid or powder, central or thunnel systems.

- Quick and easy installation that saves time and money
- Robust design with low maintenance that maximizes efficiency
- Minimizing chemical, water and electricity consumption with Nilco expert technical team
- Technical service support: Periodical control and maintenance, washing dosage and performance tracking o the dosage systems.

- Possibility to make different dosages for each type of washing machine
- Long-lasting pump motors with fixed or selectable flow
- Wide variety of membrane types adaptable to all chemicals
- Different sizes and functions for maximum flexibility
